

## PLATFORM COVERINGS

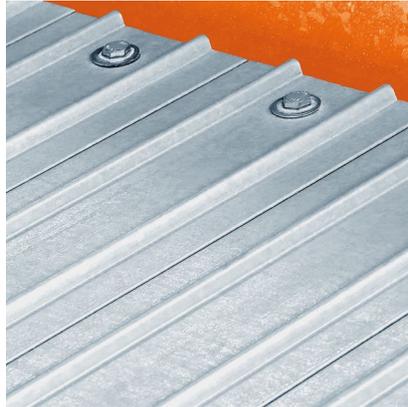

### ALULONGLIFE - EASYWALK - STANDARDGRIP

#### ALULONGLIFE

The aluminium profile stands out in many respects as an unrivalled material with outstanding everyday properties:

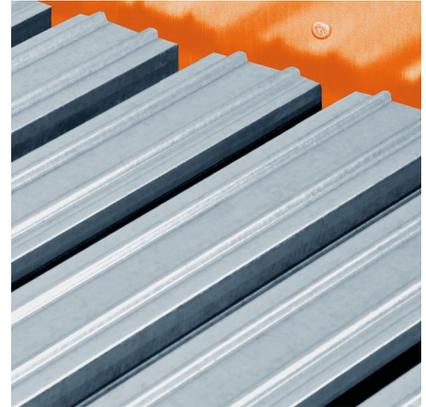

- Non-rusting
- Durable and stable in value
- Easy to clean
- Light and yet extremely stable
- Excellent corrosion and weather resistance
- Outstanding personal and vehicle accessibility
- Highly scratch-resistant

#### EASYWALK

This platform covering consists of continuous closed steel profiles with 12 mm high beads running at right angles to the platform.

It is ideal for all those who want the advantages of a modern platform covering that is easy to walk and drive on and who want more comfort than the basic 'StandardGrip' model.

#### STANDARDGRIP

Standard profile, no extra charge.
